

SIMONSCENTER
FOR GEOMETRY AND PHYSICS

CALL FOR PROPOSALS & APPLICATIONS

Organize a Program

The Simons Center for Geometry and Physics is accepting proposals for scientific programs in the fields of Geometry and Theoretical Physics, fields which have a long history of fruitful interaction. The Center believes that much progress can be made in each field by serious, substantive interchanges between mathematicians and physicists around fundamental questions of common interest. The Center asks that potential organizers propose programs that bridge these fields and that will attract both mathematicians and physicists. Programs generally run from 3 months to a full academic year. The Center supports 4-6 programs each year and approximately ten program participants at any one time to visit the Center and take part of the academic activities of the program.

ACADEMIC SEMESTER FOR PROGRAM	DEADLINE FOR PROGRAM APPLICATION
FALL 2012	OCTOBER 31, 2011
SPRING 2013	OCTOBER 31, 2011
FALL 2013	OCTOBER 15, 2012
SPRING 2014	OCTOBER 15, 2012

Organize a Workshop

The Simons Center for Geometry and Physics is accepting proposals for workshops, which are concentrated periods of activity in a focused area of interest to the Center. Topics of proposed workshops should be within geometry (interpreted broadly) and theoretical physics. Topics that span between the disciplines of geometry and physics, workshops whose organizing committees include both mathematicians and physicists, and workshops that will attract both mathematicians and physicists as participants are especially attractive to the Center. Workshops generally run for one week with 3-5 talks each day. The Center supports, on average, 25-35 participants for each workshop and runs 8-10 workshops each academic year.

ACADEMIC SEMESTER FOR WORKSHOP	DEADLINE FOR WORKSHOP APPLICATION
FALL 2012	MARCH 15, 2012
SPRING 2013	MARCH 15, 2012
FALL 2013	MARCH 15, 2013
SPRING 2014	MARCH 15, 2013

Apply for a Program, Workshop, or Visit

The Center also invites graduate students, postdocs, and faculty as well as individuals from industry to apply to attend a program, workshop, or to independently visit the Center for a period of time ranging from two weeks to a full academic year. Individual applications are reviewed by the Center's Scientific Advisory Committee and/or the program or workshop Organizing Committee. The Center especially encourages members of underrepresented groups to apply to its activities. The Center provides travel and housing support for visitors. For a few select applicants, additional stipends and/or salary replacement are also available. Individual applications for visits are accepted on a rolling basis; applicants to programs or workshops should check the appropriate deadlines for each event on the Center's website.
