Simons Center for Geometry and Physics:

Constructed in 2008 and opened in 2010. Five floors plus basement. Gallery located on 1st floor. Designed with features such as a southern-facing glass façade that maximizes sun control and maintains campus views and modular green roof systems, the building is a hallmark of contemporary sustainable design with a LEED gold rating. Architects: Perkins-Eastman

Entire building, including gallery, is equipped with a sprinkler system.

Exhibition Area:

The exhibition space is 700 sq ft and can be outfitted with portable modular walls that can reconfigure and divide the space as needed.

Gallery plinths with protective plexiglass covers are available, ceiling hooks are available for suspending heavy objects.

Environment

HVAC: The heating and cooling is controlled remotely by campus via a Building Management System (BMS) system.

Temperature range: 68-72 degrees.

Adjustable, dimmed track lighting.

Security

Docents are on duty at all times the gallery is open. Gallery is locked and secured when closed to the public. Gallery has motion and door sensors which are alarmed when the gallery is closed. Campus police are notified of any alarms and immediately check on the space in case of a trigger. Facility is locked at night with police patrols throughout on a nightly basis. Cameras at all entrances/exits of the facility.

Fire Protection & Protocol

Gallery has fire prevention sprinklers and alarms. University fire marshals are on campus 24/7 to respond to emergencies. Fire protection is also present in the storage room on the first floor.

Marked fire exit within the gallery.

Insurance

All risk museum coverage, wall to wall (with standard exclusions).
All artwork is fully insured during transit and while on display.
Insurance provider: State Insurance Fund, New York
